The young man given the historically renowned machine steps onto the front lines!

The strongest quartet of pilots aboard Sidonia take off on the night of the Gravity Festival. To defend against the invasion of the Gauna, alien lifeforms with whom peaceful negotiation is not an option, the Captain puts Sidonia into emergency acceleration, uncaring of the many casualties. To protect Hoshijiro Shizuka, the first girl he meets on the surface, the young man who has beeen raised underground in Sidonia, Tanikaze Nagate, dashes into space!

NOKA EN CRITICAL BUT STABLE UNCONSCIOUS ■ TANIKAZE NAGATE CRITICAL CONDITION UNCONSCIOUS

"IF ITS TAIL HAD BEEN SUCCESSFULLY SEVERED, THEN WE'D HAVE BEEN GUARANTEED COMPLETE VICTORY" AND THE LIKE...

CERTAINLY... THERE'S BEEN STRONG CRITICISMS LEVELLED AT PILOT TANIKAZE.

THIS IS NOT SATISFACTORY.

I, TOO, AM AT FAULT FOR NOT LEADING MY TEAM PROPERLY...

NO. OUR FAILURE TO SEVER ITS TAIL LIES NOT JUST WITH TANIKAZE ALONE.

I DID EVERYTHING THAT I COULD, BUT ULTIMATELY WE STILL ENDED UP LOSING DEAR FRIENDS.

After destroying the Gauna, Tanikaze Nagate returned safe and sound with Hoshijiro Shizuka after drifting in space for two weeks. He is unable to photosynthesize, raising concerns about his health, but when asked about his condition, he replied to the press, 'I was hungry'.

It's your fault, Tanikaze Nagate.
